INNOCENT PROJECT CO-CREATION WORKSHOP

25 JANUARY 2023

ADAM MICKIEWICZ UNIVERSITY POZNAŃ

Niepodległości 53, Poznań, Poland

We are pleased to invite 30 participants from European countries to meet for a co-creation workshop in Poznan, Poland. Judges, prosecutors, and defense lawyers will have a unique opportunity to meet and discuss the topic of electronic evidence in the context of the presumption of Innocence, during a rich day composed of lectures and workshops.

We wish to open a floor to discuss the electronic evidence issues from different perspectives, share experiences from various European countries, and identify good and bad practices when it comes to the presumption of innocence in that context. It will be the perfect place to share any doubts and problems we experience on a daily basis during criminal proceedings. Two distinguished speakers, experienced in the field, will be joining us to share their knowledge and experience. The discussion during the workshops will be conducted following a “world-café” model—each table will represent a topic connected with electronic evidence issues. This will help us identify the most pressing needs of the relevant stakeholders and collect feedback from the target groups, which will be used for the national capacity-building events.

We look forward to seeing you in Poznań.

24 JANUARY 2023
